FIRE AND LIFE SAFETY FEATURES

SMOKE DETECTORS

- Install smoke alarms inside every bedroom, outside each sleeping area and on every level of the home.
- All smoke alarms should be tested at least once a month using the test button.
- Roughly two thirds of home fire deaths happen in homes with no smoke alarms or non-working smoke alarms.
- Working smoke alarms cut the risk of dying in reported home fires in half.

FIRE EXTINGUISHERS

- A fire extinguisher can be a critical life and property saving tool.
- Fire extinguishers are valuable for immediate use on small fires.
- Only use a fire extinguisher after pulling fire alarm and notifying the fire dept.
- When using fire extinguisher ensure fire is not blocking escape route.
- Remember PASS: Pull the pin, Aim the nozzle, Squeeze trigger and Sweep fire!
- FREE fire extinguisher training! Advanced Distributed Learning Services

Station Hospital
Building 2000, Artillery Post Road**

Built as an 84 bed hospital in 1908 as part of a hospital complex which included housing for the staff, the Old Station Hospital served the medical needs for Fort Sam Houston until 1937 when Brooke General Hospital was built.

It served as an annex to the main hospital until after the Second World War. At that time, the Old Station Hospital became an administrative Annex to The Headquarters, Fourth Army.

Problems adapting the building to modern activities caused it to be vacated in 1992 pending a complete renovation. This was accomplished under the Base Realignment and Closure Act of 2005, restoring the Old Station Hospital to useful service. 32

502D FORCE SUPPORT GROUP

Sam Houston Before the Battle of San Jacinto

"We view ourselves on the eve of battle. We are nerved for the contest, and must conquer or perish. It is vain to look for present aid: none is at hand. We must now act or abandon all hope! Rally to the standard, and be no longer the scoff of mercenary tongues! Be men, be free men, that your children may bless their father's name."
